N°33
JUNE 2014

SPECIAL FEATURE

THE HEARTBEAT OF EU SCIENCE

SOCIAL SCIENCES AND HUMANITIES
**CAN MACHINES CRACK
THE MYSTERY OF MUSIC
CREATION?**

» PAGE 19

IT AND
TELECOMMUNICATIONS
**ROBOT CAREGIVERS
HELP THE ELDERLY**

» PAGE 34

4 SPECIAL FEATURE

THE HEARTBEAT

OF EU SCIENCE

- | | |
|----|---|
| 4 | Home-based rehabilitation for CVD patients |
| 6 | Cell therapy for heart diseases |
| 6 | Potent multidrug pill for cardiovascular disease |
| 7 | Ascertaining low-dose radiation impact on the heart |
| 9 | Modelling diseases in Mediterranean countries |
| 9 | New treatment for myocardial infarction |
| 10 | Consuming lupins for a healthy heart |
| 10 | New concept for myocardial implants |
| 11 | Resolution of congenital heart defects |
| 12 | New stem cell therapy for ischaemic heart disease |
| 13 | Stem cells to treat a damaged heart |

14 BIOLOGY AND MEDICINE

- 14 **New surgical breakthrough in repairing damaged spinal discs**
- 15 Managing malaria from above
- 16 Targeting cancer: nanocontainers deliver localised chemotherapy
- 17 Patients with kidney failure to get a new lease on life
- 18 A stroke rehabilitation device

19 SOCIAL SCIENCES AND HUMANITIES

- 19 **Can machines crack the mystery of music creation?**
- 20 The emerging debate on inequalities
- 21 Enhancing suicide prevention measures
- 22 Better use of statistics for economic growth
- 23 Opening up a universe of employment possibilities

24 ENERGY AND TRANSPORT

- 24 **Smart sensors for greener helicopters**
- 25 Solar-powered air conditioning
- 25 New lens technology for solar collectors
- 26 High-tech safety boost for train axles
- 27 Helping transport keep its cool
- 27 Effective new self-heating technology
- 28 An eco-friendly helicopter engine

29 ENVIRONMENT AND SOCIETY

- 29 **International exchange fosters better local action on deforestation**
- 30 Life cycle assessment for green buildings
- 31 Possible eco-impacts of CO₂ leakage
- 32 Genetic testing for brood-spawning fish
- 33 Hovercraft to clean ocean oil spills
- 33 Scanner to measure fish weight in situ

34 IT AND TELECOMMUNICATIONS

- 34 **Robot caregivers help the elderly**
- 35 Location-based apps come of age
- 36 SCENENET: 3D recreation of live events from mobile videos
- 37 Improving event transport management
- 38 Augmented Reality: Bringing history and the future to life

39 INDUSTRIAL TECHNOLOGIES

- 39 **Modular, flexible, sustainable: the future of chemical manufacturing**
- 41 Composite patch cracks and corrosion
- 41 Giving workplace injuries the slip
- 42 Capturing carbon dioxide in flue gases
- 42 Tiny holes that increase protection
- 43 Plastic weld joints — non-destructive tests

44 SPACE

- 44 **Ushering in a new era of space flight**
- 45 Unravelling the mysteries of our planet
- 46 Facilitating exchange among space National Contact Points

47 EVENTS
